

BUSINESS DEVICES THAT ARE A CLASS APART

ThinkBook combines the style and user experience of consumer devices with the security and business-class support of ThinkPad.

ThinkBook 13s G4 ARB

Smarter
technology
for all

Lenovo

Combining power and portability, the laptop powered with up to AMD Ryzen 7 Processor can be considered for the on-the-move business professionals. Support of WiFi allows users to access network resources even from network-congested environments. While an all-day battery life of up to 14 hours means continued productivity without any interruption. Additionally, a touch style fingerprint reader on the smart power button ensures easy login and prevents data from being compromised.

REASONS TO BUY

Mobile workers will benefit from the Dolby Audio dual stereo speakers and noise-canceling dual-array microphone that delivers high-quality audio while at the same time enhancing the overall sound experience. While privacy shutter in the camera helps to stay private.

With up to 16GB LPDDR5 memory and up to 1TB SSD storage, professionals can back up or access memory-intensive files on the system with ease.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

ThinkBook 13s G4 ARB
